For the first time in automobile history, cars with Custom beauty and Custom refinements are available at the price of cars of con-ventional design.

Only when one-profit manufacture is followed, cars of Custom Beauty, Luxury and Completeness can be sold at prices only slightly higher than those paid for cars of ordinary design.

Even a casual observation instantly reveals the fact that the Custom Sedans possess every attribute the present day car buyer is seeking—Beauty, Refinement, Performance, Comfort, Economy, Durability, Value—these qualities are all present in the Custom Cars
